Carlos Torres Moral

SPS Associate CS Andon Cord

About me

Former educator with a recent focus on boosting productivity at Amazon, I bring 1+ years of experience in IT and a strong foundation in vanilla JavaScript, along with some exposure to front-end and back-end frameworks.

I know the importance of clean code and design, and I am motivated by elegant logics and by making a tangible impact for clients, which drives me to continuously improve my skills.

With experience in research, policy analysis, data-driven problem-solving, and cultural awareness from political science and Spanish teaching, I have thrived in diverse environments: freelancing, small businesses, and a major corporation.

`Git`

Universitat Autònoma de Barcelona   Sep 2012 - Jul 2017
Bachelor's Degree in Political Science and Public Management

Specialization in International Relations.

Work experience

Amazon   Jan 2022 - Now
SPS Associate CS Andon Cord

Researched customer inquiries & inventory discrepancies to identify root causes of customer dissatisfaction peaks and ensure the accuracy of product data, liaising with internal warehouses and external vendors. After a year, my role evolved to exclusively focus on web front-end developing to enhance productivity.

- Leveraging internal Amazon APIs to drive efficiency by automating manual work.
- Revolutionizing workflows for Quality Audits, Support Requests, Metrics, and other specific processes, resulting in significant productivity increases.
- Addressing technical issues in my team.

`Analytical skills` `Team work` `JavaScript` `Node.js`
`Vue.js` `Git` `HTML` `CSS`

Freelance   Jul 2019 - Jan 2022
Spanish Teacher

Taught Spanish courses in-person and online, adapting strategies for all levels. Developed business Spanish courses themed around SCRUM for a French digital company and coached managers and professionals in Barcelona (reviews available at Apprentus).

`Client management` `Instructional design`

Atlas Language School (Dublin)   Jun 2018 - Sep 2018
Academic Intern

Improved efficiency of student feedback quantitative and qualitative analysis by designing spreadsheets ad hoc, and provided administrative support within the Academic Department of the school.

Institut de Ciències Polítiques i Socials Oct 2015 - Apr 2016
Research Trainee

Support for the "Anuari Polític de Catalunya" report of 2015 (mark: A). My tasks included summary of legal texts, elaboration of databases and electoral data treatment, follow-up of government activity, and press research.
